SUMMARY

I am a proactive iOS developer with a passion for clean architecture and scalable app design. I actively contribute to open-source projects and developer communities, which helps me improve my skills and collaborate effectively with other developers.

PROFESSIONAL EXPERIENCE

Astopia (Remote)   **Apr 2024 - Present**
- Developing new features and custom screens using MVVM and Protocol Oriented Programming in an astrology-focused, content-based app.
- Refactoring and optimizing the codebase for better performance and long-term scalability.
- Fixing bugs to enhance app stability and optimize the user experience.

PROJECTS

Pautopia May, 2025   App Store
A thesis project: a community and event discovery app designed for Pamukkale University students. Provides AI-powered personalized recommendations to enhance campus engagement.
- MVVM architecture, Protocol Oriented Programming, clean and maintainable codebase
- Modular UI with separate Storyboards and custom XIBs
- Cloud Messaging, Lottie animations, RESTFul API

PauSiberim Jun, 2024   App Store
A university community app built with MVVM-C architecture. It displays and announces events through push notifications to users, and also provides quiz functionality for users.
- Protocol Oriented Programming
- Programmatic UI, OneSignal, RESTful API

DergiCE Jan, 2024   App Store
DergiCE is a freelance magazine and news app built with MVC architecture.
- OneSignal, StoreKit, WebView

Video Games Explorer Feb, 2024   GitHub
A video game discovery and search app, developed with MVVM architecture.
- Programmatic UI, CoreData, DispatchGroup, Pagination, RESTFul API

SKILLS

Swift, UIKit, MVVM, VIPER, Protocol Oriented Programming, RESTful API, RxSwift, CoreData, Firebase, Adapty, Unit & UI Testing, Instruments

EDUCATION

Computer Engineering   **2020 - 2025**
Pamukkale University | GPA: 3.34 / 4   Denizli, Turkey

EXTRACURRICULAR

Languages:
- English (Upper-Intermediate)
- Turkish (Native)

Voluntary:
PauSiber Community Head, Lecturer
- Git & Github for everyone (2023)
- iOS Development workshops (2024)
